

pickens high school - pickens, sc

Trehel is pleased to announce the completion of construction on the new Pickens High School in Pickens, SC. Trehel began construction in early 2010 as a Joint Venture with Balfour Beatty Construction of Charlotte, NC, and McMillan Pazdan Smith of Greenville providing architectural services. The \$35 million project is a new 299,163 square foot prototype high school on a 144-acre site in Pickens, SC. The new campus features forty-three general classrooms, ten science lecture labs, band and chorus rehearsal rooms, administrative space, a cafeteria for 540 students, a gymnasium for 2,010 students and an auditorium for 890 students. In addition, Trehel completed construction on a 5,800 seat football stadium, a baseball and softball stadium, a running track and other athletic fields. Jack Weber was Trehel's Project Manager, Tyler McKee the on-site Project Engineer, and Chris Frey the on-site Superintendent for the stadium. The Trehel and Balfour Beatty team completed the project in September, in time for the fall 2011 semester.

wofford college student village, phase v - spartanburg, sc

Trehel Corporation began construction on Phase V of the Wofford College Student Village in September 2010. The 54,685 square foot mixed-use facility and dormitory includes Wofford College's new Center for Professional Excellence, classroom space, offices, a deli-style café and small food market. The upper two levels include four-bedroom loft apartments with eighty beds. The completed project is currently under review for LEED® certification. Trehel worked with Keith Summerour and Anne-Michael Sustman of Summerour Architects out of Atlanta, Georgia.

John Cox was Trehel's Project Manager, Jade Bellack was the Project Engineer, and Keith Crane was the on-site Superintendent. Trehel completed the project in September 2011 for Wofford's fall semester.

The new facility is the fifth phase that Trehel has completed for the Wofford College Student Village since 2006. The Village features student housing and other amenities in a neighborhood - style complex consisting of mixed-style dwellings.

clemson professional centre - clemson, sc

Trehel Corporation is pleased to announce the completion of construction of the new Clemson Professional Centre in Clemson, SC. Trehel began construction on the facility in September 2010 with Signature Architects of Clemson providing architectural services.
